FOODPOLICYACTION.ORG

February 24, 2016

Dear Senate Committee on Agriculture Members:

Ahead of the February 25, 2016, Agriculture Committee hearing on Senator Roberts' anti-GMO labeling bill, please find the attached letter from more than 700 chefs and food professionals from around the country in support of mandatory labeling of genetically modified foods, originally sent to Congress in December 2014. As chefs, they are standing up for the fundamental right to know what's in the food they cook and serve to their customers. We urge you to reject any attempt to prevent the mandatory labeling of genetically modified foods.

Sincerely,

Claire DiMattina
Executive Director
Food Policy Action

December 2, 2014

Dear Congress:

We, the undersigned chefs and food professionals, have a fundamental right to know what's in the food we feed our customers. We urge you to pass the Genetically Engineered Food Right to Know Act (H.R. 1699/S. 809) to require that all genetically modified foods are clearly labeled.

Sincerely,

Tom Colicchio
